## CAREER OBJECTIVE

Motivated Artificial Intelligence and Data Science student with a strong foundation in Python, SQL, Machine Learning, and Data Analysis. Seeking an opportunity to apply technical skills, learn from experienced professionals, and contribute to organizational growth while building a career in AI and Data Science.

## EDUCATION

**Bachelor of Technology (B.Tech.), Artificial Intelligence & Data Science** — Zeal College of Engineering and Research, Pune

2024 – Present | CGPA: 9.14

**Higher Secondary Certificate (HSC)** — M. I. T. Junior College, Pune

2024 | Board: 61.50% | CET: 68.47%

**Secondary School Certificate (SSC)** — Shree Sant Dnyaneshwar Madhyamik Vidyalaya, Kothrud, Pune

2022 | Percentage: 79.80%

## TECHNICAL SKILLS

**Programming Languages:** Python, C++, SQL, R

**Web Technologies:** HTML, CSS

**AI & Data Science:** Machine Learning, Data Analysis, Data Visualization

**Tools & Platforms:** Git & GitHub, Microsoft Excel, Power BI, VS Code, Jupyter Notebook

## ACADEMIC & PERSONAL PROJECTS

**AI-Powered Sales Forecasting Web Application** | Python, Pandas, Matplotlib, Statsmodels (ARIMA), Streamlit

- Built an interactive Streamlit dashboard enabling users to upload sales datasets and visualize historical trends.
- Implemented ARIMA time-series modelling to forecast future sales from historical data.

**Live Weather Web Application** | HTML, CSS, JavaScript, Node.js, OpenWeather API

- Developed a real-time weather application with automatic geo-location-based detection for any city.
- Displayed live temperature, humidity, and 24-hour forecasts with dynamic weather-based themes.

**SwacchSetu — Smart Waste Management and Recycling Platform — Hackathon Project** | React.js, Node.js, Express.js, JSON Database, JWT Auth, Tailwind CSS, Recharts

- Developed a smart waste collection and recycling platform for residents and admins, with categorized pickup requests, role-based authentication, and real-time request tracking.
- Implemented a 5-status request workflow, advanced filtering, and analytics dashboard with collection charts, category statistics, performance metrics, and pre-seeded demo requests.

**AI Cargo Inspection System — Hackathon Project** | Deep Learning, Computer Vision

- Contributed to system architecture design and documentation for an AI/ML model built to detect suspicious, mis-declared, or prohibited objects in cargo images for customs and border security.

**Lunar Habitat Site Selection — Hackathon Project** | AI, Geospatial Data

- Built the data pipeline for an AI-based lunar surface hazard detection system, processing DEM and lunar imagery data to extract terrain features such as elevation, slope, surface roughness, and crater-related hazards for potential habitat site analysis.

## INTERNSHIP / EXPERIENCE

**Data Analysis Intern (DBA Department) — SCOOPEN School of Program Engineering**

1 Month | SQL, Power BI, Oracle SQL Developer

- Assisted in developing data science projects and collaborated with team members to complete assigned tasks on time.
- Successfully completed the 1-month internship program.

**Data Scientist Intern — Omegasoft Technologies Pvt. Ltd.**

1 Month | Python, VS Code, GitHub, Vercel

- Assisted in developing real-world data science projects, gaining hands-on experience in data analysis, visualization, and modeling.
- Collaborated with team members to deliver assigned tasks on schedule, strengthening analytical and problem-solving skills.

**SEO Intern / Digital Marketing Intern — Devsync IT Solution & Consulting**

2 Months | SEO, On-Page Submission, Off-Page Submission

- Gained practical exposure to the basic SEO workflow, including keyword research, SEO content, meta titles and descriptions, on-page SEO, competitor research, and off-page submissions and backlink building.

## ACHIEVEMENTS

- Secured 2nd position (Runner-Up) in a 24-Hour National Hackathon by developing an innovative solution to a real-world problem.
- Consistently maintained strong academic performance throughout the degree program (CGPA: 9.14).
- Active participant in multiple hackathons and coding competitions.

## CERTIFICATIONS

---

- **Common Internship Test** — Internship Studio (2024)
- **Generative AI Productivity Skills** — LinkedIn Learning & Microsoft (2025)
- **Internship Completion** — **SCOOPEN School of Program Engineering (1 Month)** — SCOOPEN (2025)
- **Smart India Hackathon** — Zeal College of Engineering and Research (2025)
- **Internship Completion** — **Omegasoft Technologies Pvt. Ltd. (1 Month)** — Omegasoft Technologies (2026)
- **VIT 24-Hour National Hackathon (TESSERACTS'26)** — Tesseract, Parallel Minds & Data Smith AI (2026)
- **Introduction to Cyber Security** — CISCO Networking Academy (2026)
- **National Space Innovation Challenge (NSIC)** — MIT-WPU 8-Hour Hackathon
- **FIT-FEST** — Organized by Flora Institute of Technology, 8-Hour Hackathon

## ADDITIONAL INFORMATION

---

**Soft Skills:** Problem Solving, Communication, Teamwork, Quick Learner

**Languages:** English, Hindi, Marathi, Sanskrit, Basic Japanese

**Interests:** Exploring Artificial Intelligence, Learning New Technologies, Coding, Cricket & Kabaddi
